Organising team (Adrian & Helen Taylor) comments

Thank you to everyone who turned up. The forecast was for moderate winds, mild temperatures and no rain: Unfortunately, we suspect that the gales and heavy showers kept a good number away. Anyway those who did brave the elements enjoyed the event from the feedback we received.

Apart from providing fun for everyone, at all levels, we set a challenge to you to gain a maximum 60 points from a combination of physical and mental effort. The results suggest that the target was almost attainable, but no one quite made it. Well done to the 11 people who managed to punch all 27 controls (with 5 also visiting and solving the 3 food anagram controls). Once again the winner, and 8 of the top 10 points scorers, achieved this by not getting all controls, but doing well with answering the clues. Several people got 9 out of 10 of the ship clues, and 14 got at least 7 out of 10. Fewer managed to identify the century when the boats sailed. Please note that unfortunately, we have no appeal process in place, but 5 people forgot to write their name on the control card so if you can identify yourself from the results shown (and are bothered) then please e-mail (ahjkd@fsmail.net)!!

Just a few thanks now to Olivier Boucher (who was back in France for the event) for drawing the map, Roger Green for adjusting the map, adding controls and getting the maps produced, Tim Gent for helping at registration, several people for help with the catering, and The Santa (Jacky Brown), The Snow-women (Jamie Taylor), and The Bear (Duncan Taylor)! Jamie and Duncan were also a big help with directing you to find a parking space in a village not designed for cars. Thanks to those who heeded warning re. parking and found their way to the village by bike or train.

A mix of punch and mince pies all went down well, in the Sailing Club with a wonderful view over the estuary. As an LSC member, thanks to the LSC committee who approved the use of the club for a post-event social. A great day!
